About Me

I am a top performing illustrator, marketer, and artist currently based out of Missouri but willing to relocate. Experienced in Adobe software, Canva, Google applications, and much more. I am very hard-working and a team player. I am seeking to maintain a fun work environment and a position to continue to grow and create.

Professional Experience

FSS Marketing Office and Print Shop

Visual Information Specialist | 2024-present

- Designed, printed, and marketed flyers, logos, and all promotional materials for all FSS facilities, customers and more, both on and off base.
- Printed large print jobs of varying types for customers, making and accounting money for our office.
- Created promotional videos, lives, took photos and marketed at events.
- Took on the director role for 5 months while the position was vacant, quickly learning almost all the positions and duties.
- Found new ways to better market not only the office, but all of the base events and facilities.
- Redesigned the Squadron magazine to be more cohesive and fresh, for each month to print and distribute.
- Juggled many different job tasks and high workload each day, including print jobs, designs, finances, social media, marquees, flyers, inventory, videos, distribution, customer service, and more.

College Art and Design Projects

2019-2023

- Established a proper design process including research, moodboards, sketches, drafts, mockups, style guide, and more.
- Gained experience in multiple different design applications for projects like illustrator, after effects, photoshop, and more.
- Expanded my knowledge and skills in HTML and CSS coding for website design.
- Collaborated with many different groups of people on projects to take in critiques and input to help me learn, grow, and improve.
- Gained fundamental skills including color theory, elements of design, attention to detail, and more.
